

## Elevator Sex?

It has come to our attention that the elevators in the tower announce floors in female voices while the elevator between the Mezzanie and Ballroom levels announce in male voices. We wonder: Why is the female-to-male ratio so skewed? Why do the female elevators do more work? Is there a gender bias at work? (Ed Note: How come the shortest elevator is male?)

## MYCHIP Sunday Morning in Fast Track

MYCHIP (Masonic Youth/Child Identification Program) is a program to provide tools to find and identify lost or missing children. A disc with the child's picture and voice, a DNA swab, a wax impression bite, and fingerprints is taken to create a full record. All this material is given to the parents, nothing is kept by the organization. The service is available free to the parents of children of any age. The program was also available for adults, including Alzheimers patients. It will be available for parents at Arisia at 10 AM, Sunday morning, in the Hancock Room, a part of the Fast Track program.
